## Course requirements:

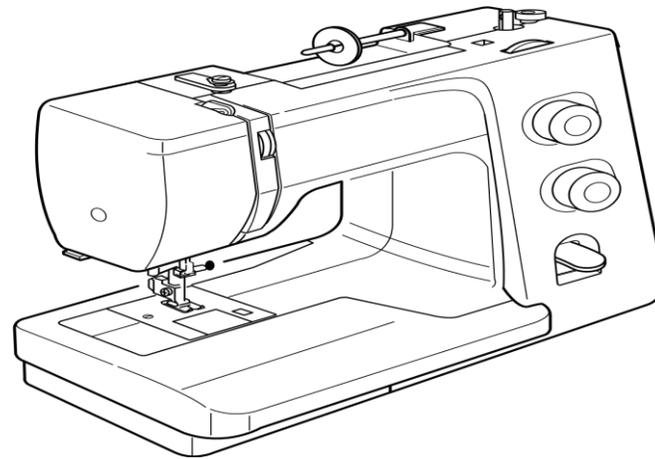

You need no prior knowledge, just a willingness to learn the subject. You will need constant access to the relevant domestic sewing machine and a small amount of tools. A computer with internet to download the course. Then you can work offline in your own time at your own pace. There is no timeline to complete the course.

# Online Course

## Level 3

### Module 3

# Check Zig Zag setting and adjust needle bar

NEXT

# Course Objectives

At the end of this Course you will be able to:-

- ✂ Check and adjust the Needle Bar lateral alignment for wide / zig-zag stitches.

NB:- The method of realigning the needle bar's position may vary depending on the make and model of machine. This module describes one common example. If your machine is different please obtain and follow its servicing manual or contact your instructor for further help.

# Adjusting

4. Once satisfied that the needle bar is in its optimum left position (Fig. 4), Nip up the locking grub screw.
5. Rotate the hand wheel towards you and check the needle is in its optimum Right hand position (Fig. 5).

If not repeat the previous steps.

6. Hold the mechanism in position and fully re-tighten the retaining grub screw (Fig. 6) and then replace the Rocker bar Limit strap to its original vertical position.
